## 1. Introduction

WIFI/RF receiver, connected to your phone by Bluetooth and WiFi, can integrate all of our RF sensors to TUYA platform, which adopts the advanced wireless access technology, powerful microcomputer control system, large capacity and high-quality voice processing technology, stable and reliable performance, integrated with 32 optional ring tones. The WIFI/RF receiver and the pager can be coded wirelessly.

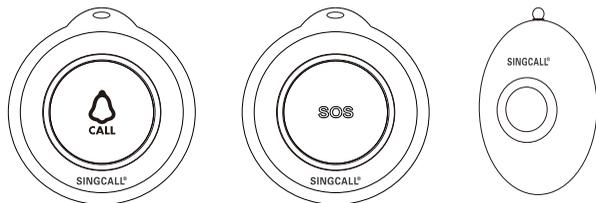

Arm Mode/Home Mode: Any alarm device will trigger alarm.  
 Disarm Mode: The alarm device (SOS button not included) will not trigger alarm.

When you press **【 SOS 】** to stop the music, at this time the system changes to Disarm Mode, please set the system to Arm Mode/Home Mode with a short press of **【 Gear 】** or operate on the Tuya APP.

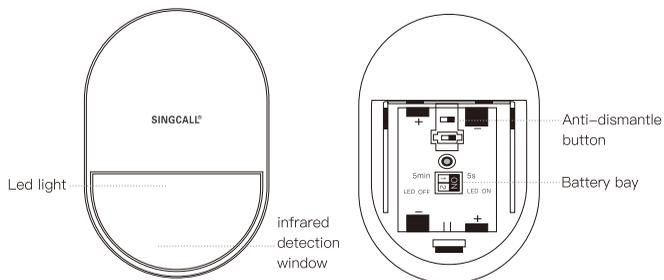

### Features

1. 32 ring tones optional
2. 5 adjustable volume (including mute)
3. Bluetooth and WIFI wireless connection, controlled by APP remotely
4. Alarming from The WIFI/RF receiver and pushing notification to Mobile APP when trigger happens
5. Memory function
6. Up to 24 accessories can be added
